We Do Home Care Differently

Our concierge approach to home care starts with expertly matching our carefully screened caregivers to each client based on his or her needs and preferences. Our clients and family members have access to a full care team 24 hours a day, 7 days a week, to address any questions or concerns. The level of support and flexibility we offer is unmatched in the industry, providing peace of mind to families and independence to our valued clients.

Finding the Perfect Caregiver Match

Our caregivers are the foundation of our company and what makes us different. Each is carefully screened and trained in our Balanced Care Method, providing client-centric care to ensure optimal quality life at home. After a comprehensive in-home assessment and interview process, clients and caregivers are expertly matched by our Care Team to ensure a deep, lasting bond built on shared interests and personality.

At Home Care Assistance, we are very selective about the caregivers we hire—only individuals who have experience working with older adults, no criminal background, appropriate references and legal right-to-work documentation are considered. Diligent screening results in caregivers who are genuinely and personally committed to providing the highest caliber of care to their clients.

Select the Services You Need

When illness, frailty or forgetfulness make daily living difficult, we can help. Flexible scheduling allows us to meet each client's specific needs, whether it's around-the-clock or hourly care. Home Care Assistance caregivers provide safety, companionship

and emotional support, devoting 100 percent of their attention to maintaining a positive and healthy home environment for their clients. Our Care Team's focus is on building a long-term relationship with families to ensure their loved one's evolving needs and our high quality standards for their wellbeing are met.

Around-the-Clock and Hourly Care

Caring for older adults who need continuous care throughout the day is our specialty. Our caregivers stay at the client's home 24 hours a day, providing family members with peace of mind that their loved one is never alone. Primary and backup caregivers are provided for full-time, 24 hour care clients to help ensure continuous, attentive coverage.

Hourly care services help individuals maintain normal routines and activities of daily living. With the right support, aging adults can enjoy their preferred way of life in their own homes, surrounded by their possessions, pets and a familiar environment. We can also provide companionship and monitoring during hospital stays, or in rehab and skilled nursing facilities. Clients can even take their caregiver with them on vacations, lessening the stress on family caregivers and creating an enjoyable travel experience for all.
